## PRE-FABRICATED SHELTERS

We can place your system in a full enclosure that is transported to site and permanently installed. Beneficial to reduce man hours at site and chances of injury, fast track projects, arctic or tropical locations where equipment can't be exposed to elements. We acquire these units as empty shells and can customize them to meet your needs

## CUSTOM FEATURES & PARTS

- Fans / heaters / HVAC
- Lab area with fume hoods
- Conduit
- EXIT signs
- Flat or Angled Roofs, Gutters
- Fluorescent lighting
